**Course Description:** Facial Recognition is becoming a key part in the ever-growing “toolkit” for law enforcement agencies. This course will provide an in-depth overview of the current state of Facial Recognition technology, legal aspects, and best deployment practices. We will focus on Vigilant Solution’s FaceSearch software, which is a nationwide, cloud-based software of 24 million open-source images of LEA mugshots and known sex offenders. You will get the chance to work through real-world scenarios on facial recognition databases, utilizing enhancement tools with step-by-step instruction.
